### 3. Management's comment on the factors and events that affect the achieved financial results

It was quite successful period for the company. Market prices for agricultural production were rising all the time, and demand for sunflower oil was high. As a result, we improve our financial results.

In the first quarter of 2011, Agroliga Group achieved EUR 1 546m revenues. This was possible mostly due to successful work of our oil refinery.

### 4. Report on the Company's activities in 2011Q1

At first, during 1Q 2011 our company has made our debut at New Connect.

It was a great pleasure for us to become a part of this successful community.

In the first few weeks of trade price for our shares was rising, and it was a very good signal for our investors.

According our strategy, main targets for year 2011 were:

YEAR	PLANNED INVESTMENT
By 2012	<ul style="list-style-type: none"> <li>• Increase of productivity from 1 ha by 20-50%</li> <li>• Increase of herd by 200 pedigree, high-milk cows</li> <li>• Launch of second installation for sunflower production able to produce 10 thousand</li> </ul>

tonnes per year, which will allow to increase total production by 17 thousand tonnes/year

- Reach of 5% share in Charkow's sunflower oil production market

It was not so much time from the beginning of 2011, but we are ready to report about first steps on this way.

At first, since this year was implemented program of using new liquid fertilizers. The introduction of CAS as a primary fertilizer will enable the Company to achieve a 30-40 percent higher yields per year.

At second, agreement was signed with Poltava cow breeding farm – and 50 milk cows will join our herd in May, and another 50 in September. We are still looking for more good additions for our milk farm.

At third, reequipping of oil refinery was started, and was found a possibility to expand its capacity even more, then was planned. It's estimated 50-55 thousand tones of sunflower processing per year. The factory will be ready by August, to start a new season with new capacity.

**5. The Management Board's opinion about the possibility of achieved the forecasts for 2011 in light of the presented financial data for the period from 01.01.2011 to 31.03.2011**

According to results of 1Q 2011 year, we take a good start this year. Our revenue is 1 546ths Euro (forecast all 2011 – 10 228.6ths Euro) and our profit is 225ths Euro (forecast all 2011 – 1 931.7ths Euro).

Usually, 1Q of the year gives from 1/8 to 1/6 of the year revenue, so our forecasts look quite realistic.
